BY KATHRYN GIVEN / NOVEMBER 18, 2021

From handcrafted marbled paper pieces to exotic mineral sculptures, these fabulous finds are sure to add sparkle to your cabinet of curiosities.

EARTHLY DELIGHTS

Formed millions of years ago, **Studio Greytak's** geological masterpieces artfully juxtapose the elaborate ornamentation of a French curio cabinet from **ABC Home**. Malachite Botryoidal on Pink Cast Glass Base (top) and Colombian Quartz on Cast Bronze (bottom) are created first by Mother Nature and then composed by Montana's John Greytak. Each piece is one-of-a-kind and an example of how pressure can produce stunning results.
