### Studio Greytak In the Colonel's Room

---

Studio Greytak is a conceptual art project by John Greytak in Montana where he explores the intersection between design by nature and design by humans.

Studio Greytak is bringing the wonder of the Montana landscape to Salon Art + Design, transforming the Park Avenue Armory's Colonel's Room into an immersive experience. Within this magical environment, Studio Greytak presents its Universe collection. This series explores the mysteries of our world through gems and minerals and their roles in Earth, Sky, Sea, and Space. Using these jewels of the Earth as a starting point, Studio Greytak mimics the tools of nature to create pieces that defy scale.
